Frisco ISD Extracurricular Code of Conduct for Middle and High Schools: Cheerleading & Mascots

Purpose and Vision

Frisco ISD cheerleaders and mascots are leaders chosen to represent the campus, district, and community in the promotion of team spirit, development of strong character and sportsmanship, and reinforcement of respect and positive relations within our community. The students involved in these extracurricular activities consistently demonstrate tenacity, teamwork, and commitment. In addition, they continually develop responsibility, pride, loyalty, leadership, service, self-discipline, and self-confidence. As leaders, students are encouraged to achieve personal goals regarding their athletic abilities and their social and emotional development.

Philosophy of Participation and Jurisdiction

The term “extracurricular activities” means, without limitation, all cheerleading and mascot performances and contests, competitions, or community events in which the district is represented. Membership includes any non-curricular event, and participation in groups, clubs, and organizations. Membership is recognized and approved by the Board of Trustees and the school district as well as sponsored by the district or a campus. All extracurricular activity participants, including elected and appointed officers of all campus organizations, are subject to the provisions of this document.

Student participation in these and other extracurricular activities is encouraged. Frisco ISD makes extracurricular activities available as an extension of the regular school program. Participation in the regular curriculum is a right afforded to each student, while participation in the extracurricular program is a privilege that carries additional expectations for acceptable conduct. While students engage in, perform, compete, or participate in extracurricular activities, they represent themselves, their student body, and the school district whether in or out of uniform.

Since participation in extracurricular activities is a privilege and not a right, Frisco ISD is authorized to set higher standards for these participants than it would for those students who choose not to participate in these activities. Therefore, this Extracurricular Code of Conduct extends beyond the Frisco ISD Student Code of Conduct not only in types of behavior prohibited but also in corresponding consequences and jurisdiction for imposing discipline. This Extracurricular Code of Conduct will be enforced with all students grades 6-12 participating in the Cheerleading/Mascot organization regardless of:

- whether school is in session;
- whether the offense occurs on or off school property or at a school-related event;
- whether the student is directly involved with the extracurricular activity at the time the prohibited conduct occurs;
- whether the extracurricular activity is in-season;
- and where or when the conduct occurs.

A student who violates the Frisco ISD Student Code of Conduct may incur consequences from both the appropriate school administrator and from his or her coach for the same particular violation. It is also possible that a student participant in extracurricular activities could violate the Extracurricular Code of Conduct and be subject to discipline by a coach without having violated the Frisco ISD Student Code of Conduct.

Conduct Expectations

The following conduct is expected of all participants at all times during his/her school career. The organization coach will assign consequences for any violation of expectations as outlined below. Consequences will be in accordance with this Extracurricular Code of Conduct and/or the Frisco ISD Student Code of Conduct.

1. Student commitment to a team or organization is expected for the entirety of the season or activity, as determined by the campus administration and organization coach. Students are encouraged to participate in more than one extracurricular activity; however, students may not quit one sport or program in order to participate in another while the activity he or she quits is still active.
2. Organization members are expected to behave in a manner that is becoming of the individual, as well as to the organization they represent. They should be aware that in or out of uniform they are representatives of the organization and the campus they attend and should act accordingly in maintaining a higher standard of conduct. Organization members will abide by school codes of conduct both in and out of uniform, both at and away from school. Any question of appropriateness will be decided by the designated campus official and coach.
3. During performances, organization members will stay with the team at all times unless given direct permission by the coach.
4. Cheerleaders may not be on the field or gym floor without having the coach present.

5. Organization members will demonstrate good sportsmanship at all times. This includes behavior toward visiting or hosting teams as well as the opponent's fans. Frisco ISD participants will be noted for clean yet tough competition. Praise your opponents while competing beyond your ability.
6. Organization members will be courteous and respectful to their teammates, coaches, teachers, classmates, and all school/district administrators at all times.
7. Organization members will refrain from public displays of affection while in or out of uniform.
8. Organization members are expected to maintain appropriate behavior on social media. Any online behavior that causes interference with a student's educational opportunities or that does or could reasonably substantially disrupt the orderly operation of a classroom, school, or school-sponsored or school-related activity will result in disciplinary action.
9. At no time should organization members be in possession of or use tobacco or similar products of any kind (including vaping and e-cigarettes).
10. At no time should organization members be in possession of or consume alcoholic beverages.
11. At no time should organization members be in possession of or use abusive or illegal drugs (including but not limited to marijuana, narcotics, drug paraphernalia, etc.).
12. Students should arrive to practices (including workouts), meetings, and events on time and prepared, and are required to stay for the duration of the event.
13. Students should follow the rules promulgated in the Frisco ISD Student Code of Conduct. Failure to do so may result in disciplinary measures related to the student's participation in extracurricular activities as determined by the coach and campus principal or designee.

FISD Extracurricular Code of Conduct Disciplinary Policies

The following policies apply to all extracurricular activities at all FISD schools.

1. The possession or use of alcohol or controlled substances is prohibited. The following penalties will be enforced.

Step 1 (1st offense)

The student will be suspended from participation in cheerleading performances for the next two calendar weeks in which the student would otherwise participate. The suspension will be carried over from one season/school year to the next if there are not two calendar weeks in which remaining performances occur at the end of the current season/school year.

Step 2 (2nd and subsequent offenses)

The student will be suspended from participation in cheerleading performances for the next five calendar weeks in which the student would otherwise participate. The suspension will be carried over from one season/school year to the next if there are not five calendar weeks in which remaining performances occur at the end of the current season/school year.

Step 3 (3rd subsequent offense)

The student will be suspended from participating in all cheerleading activities at Frisco ISD for one calendar year from the date school officials notify the student and parent of the infraction. *If the student wishes to return to cheerleading performances upon the completion of their suspension, then the student, parent/guardian, and coach may collectively determine if the student should remain in the cheerleading program during the one-year suspension and/or if the student should be allowed to participate in the try out process.*

Each infraction carries over from year to year while the cheerleader is in middle school. Infractions begin at zero upon the student's enrollment as a freshman in any Frisco ISD high school and will carry over from year to year during their high school enrollment. Cheer coaches in conjunction with FISD administrative staff, will investigate all reported violations in accordance with campus guidelines and training. Any infraction or combination of the illegal use or possession of alcohol and/or controlled substances will result in the same consequences, whether it is a first, second, or third offense. Cheerleaders who are also student-athletes and subject to random drug/alcohol testing

and who test positive for drugs/alcohol will be suspended from cheerleading according to the appropriate step and number of previous offenses and in accordance with the Frisco ISD Athletics Handbook.

2. If a student commits a serious criminal act, it reflects negatively on all extracurricular activity participants.

The following consequence, in addition to any other school disciplinary action, will be enforced in the event school personnel have reasonable suspicion to believe a student has been involved in the commission of a felony offense, as defined by the Texas Penal Code or by Federal law.

The student will be removed from participation in all extracurricular activities for one calendar year from the date school officials first become aware of the offense.

If the student wishes to return to cheerleading performances upon the completion of their suspension, then the student, parent/guardian, and coach may collectively determine if the student should remain in the cheerleading program during the one-year suspension and/or if the student should be allowed to participate in the try out process. The campus administration may at any time remove a student or prevent a student from participating in the cheerleading program if it is determined that the student's presence in the program threatens the safety of other students or teachers or will be detrimental to the educational process.

3. Activity sponsors or coaches are permitted to assign reasonable consequences in the event a member of their activity group violates any part of the FISS Student Code of Conduct or any assigned Campus Behavior Management Plan.

In order to maintain the safety and performance standards of the squad, any cheerleader granted an exception to miss camp must attend a mandatory one-day skills and safety training before participating in any cheer activities. Additionally, the cheerleader will not be eligible to participate in cheer performances until they demonstrate mastery of the material covered during the summer camp. Mastery will be assessed at the discretion of the cheer coach.

3. Camp is paid for by the cheerleader.
4. All necessary camp paperwork must be turned in by the specified deadlines for students to participate.

Attendance Expectations

2. Cheerleaders will attend all scheduled practices outside the school day, school games, pep rallies, and other scheduled events or activities as notified by their coach(es). 3 UNEXCUSED absences from one or a combination of the aforementioned activities may result in immediate removal from the team. Extenuating circumstances or emergencies, such as a death in the family, do not require 24 hours' notice or approval from a coach to be excused; however, written documentation shall be submitted to the coach within three days of the student's return to school following the absence for documentation purposes. Written notes MUST be provided for all absences.
 - a. Absences related to UIL game conflicts and school-related meetings require written notice 5 days in advance to prevent the absence from being unexcused.

Examples of Excused Absences: *Illness (documentation required based on expectations of the coach and campus administration), death in the family, religious holidays, University Interscholastic League game/match/performance, school-related meetings, or any absence that is excused by the campus for that day. Absences related to UIL game conflicts and school-related meetings require written notice 5 days in advance to prevent the absence from being unexcused unless notification of the event was received within those 5 days.*

Please note that extensive medical-related absences could result in physician documentation for continued participation if deemed appropriate by the coach and campus administration.
