School Visitor Management

KEEPING SCHOOLS SAFE

BY ENDING THE FREE PASS FOR PREDATORS

A Smarter Approach to
Visitor Screening and School Security

Visitor Management

Protect students and faculty by logging visitors, screening for sex offenders and school restricted individuals. Positive identification and unique security features put your school in control.

Custody Care

Custody care, court orders and parental requests are easily managed by restricting and noting visitor records. On or off site maintenance keeps office staff updated with any special situation.

Reports

Visitor, student, volunteer and faculty information is available for daily, weekly, or annual reports. All detailed information can be exported to PDF or Excel formats.

Alerts

Email and Text alerts instantly notify administrators of unwanted visitors. In imminent threat situations, the "Instant Alarm" will notify school officials or law enforcement in seconds.

# Hall Pass Makes It Easy And Cost-Effective To Manage All School Visitors

Student Management

Detailed student reports, guardian lists, printing tardy passes, logging early dismissals and tardy time calculation are solutions HALL PASS brings to student management.

Faculty Management

With active RFID key fobs and Faculty ID Badges, HALL PASS can log entry and exit times for faculty, volunteers and maintenance personnel from multiple locations within any network.
